c/o Mr. Reed Wilde, President
Croydon, Utah

Gentlemen:

Re: Weber River Dist.

You were informed by the State Engineer's Office and by this office, of the necessity of equipping your diversion works on Lost Creek with a screw-type gate in front of the measuring devices on each of your ditches, and of also installing a wastegate on each ditch.

These requests were not carried out. Pursuant to 73-5-4, U.C.A. 1953, you are hereby given 30 days notice, or until June 15, 1960, in which to install the above mentioned measuring devices and gates, under the direct supervision of the Water Commissioner, Mr. Edward Southwick.

If you fail to comply with this order, we will be forced to secure a court order restraining your diversion of water from the above described source.

Very truly yours

RICHARD R. BOYLE
Assistant Attorney General
